

Table of contents

Titlepage

Introduction

p. 1

- 0.1- How it came about
- 0.2- Comments on the questions addressed in the research project
- 0.3- The instruments, space and time scope of the study
- 0.4- The arrangement of the chapters
- 0.5- About the translation and the alterations to the original thesis
- 0.6- Acknowledgements

Chapter 1 Sources, methods and history of the research

p. 9

- table of contents of chapter 1

1.1 Introduction: the nature of the sources and the research data

- 1.1.1 *Provenance, application and notation of the research data*
- 1.1.2 *Official and unofficial diagrams and measurement data*
- 1.1.3 *The publications of the Gemeentemuseum Den Haag and of other collections*
- 1.1.4 *Monographs and articles on Dutch woodwind instruments*
- 1.1.5 *Background articles on woodwind instruments and their acoustics*
- 1.1.6 *On new copies of the scrutinized instruments*

1.2 Research into the makers' biographical data

- 1.2.1 *Comments on the geographical and temporal parameters of the investigation*
- 1.2.2 *Biographical research: sources and history*
- 1.2.3 *Editing the biographical data*

1.3 Historical nomenclature and iconographical research

1.4 Representation of notes and pitches; modern nomenclature of the instruments

- 1.4.1 *Notes and pitches*
- 1.4.2 *Modern nomenclature of woodwind instruments*
- 1.4.3 *The terminology of the sections and elements of the instruments*
- 1.4.4 *Terminology and classification of the mouth-holes, tone-holes and keys*

1.5 Instrument lists; provenance and reports of the instruments

- 1.5.1 *Tracing, identification and numbering of the instruments*
- 1.5.2 *Public and private collections*
- 1.5.3 *Historical collections and exhibitions*
- 1.5.4 *Recent and historical reports of instruments - vanished instruments*

1.6 Identification and attribution of the instruments

- 1.6.1 *The importance of scrutinizing stamps and inscriptions*
- 1.6.2 *Stamps, inscriptions and embellishments*

1.7 Materials and their use

- 1.7.1 *Introduction*
- 1.7.2 *The kinds of wood*
- 1.7.3 *Ivory and bone*
- 1.7.4 *Other organic material*
- 1.7.5 *Metal components*
- 1.7.6 *The working and quality of the wood*
- 1.7.7 *Colouring and surface treatment*

1.8 The state of preservation and playability of the instruments

- 1.8.1 *Introduction*
- 1.8.2 *Damage and repairs*
- 1.8.3 *Playability*

1.9 The turnery: an attempt at characterisation and assessment

- 1.10 Accuracy and comparability of the measurement data**
 - 1.10.1 *Comparability and accuracy of the measurements*
 - 1.10.2 *Loss of moisture and shrinkage*
 - 1.10.3 *Measuring techniques*
 - 1.10.4 *The term 'sounding length'*
 - 1.10.5 *The finish of the bore and its influence on the measurements*
- 1.11 Describing bore profiles**
 - 1.11.1 *Cylindrical and conical bores*
 - 1.11.2 *Comparing conical bore profiles*
- 1.12 Measuring mouth-holes and tone-holes**
 - 1.12.1 *Positions and sizes of holes*
 - 1.12.2 *Undercut tone-holes*
 - 1.12.3 *Measuring and assessing traverso mouth-holes*
- 1.13 Measuring recorder windways**
 - 1.13.1 *Measuring technique*
 - 1.13.2 *The 'step'*
 - 1.13.3 *Application of the block and windway data*
- 1.14 Technical/acoustical properties of the instruments**
 - 1.14.1 *Problems in the comparison the results of playing the instruments*
 - 1.14.2 *Measuring pitches*
 - 1.14.3 *Measuring technical properties (other than pitch)*
 - 1.14.4 *The sound-character of the instruments*
- 1.15 Examining the proportional design of the woodwind instruments**
- 1.16 Classification of woodwind instruments according to the Heyde method and the Lerch method**

Chapter 2 Biographical data

p. 61

- table of contents of chapter 2

- 2.1 Introduction**
 - a- the makers' names*
 - b- makers whose instruments have not been preserved and makers outside Amsterdam*
 - c- linking stamps and archive data*
 - d- arrangement of the chapter; sources*
- 2.2 Abraham van Aardenberg**
- 2.3 Jan (Barend) Beuker**
- 2.4 Willem Beukers senior & junior**
- 2.5 Thomas & Jan Boekhout**
- 2.6 Philip Borkens**
- 2.7 Wijbrand van Buren**
- 2.8 I. Deppe**
- 2.9 Van Driel**
- 2.10 F. Eerens**
- 2.11 D. van Gulik**
- 2.12 Richard Haka**
- 2.13 Klaas (Pieters) van Hallum**
- 2.14 The Van Heerde family**
- 2.15 Bernard Hemsing**
- 2.16 Andries Hillebrandsz**

- 2.17 Jan & Fredrik de Jager
- 2.18 Reindert Jansen
- 2.19 Johannes van de Knikker
- 2.20 Caspar Leijdeман
- 2.21 Gerrit Ligthart
- 2.22 Johannes van Lints
- 2.23 Johannes Nieuwenhooven
- 2.24 Michiel Parent
- 2.25 The Richters family
- 2.26 Coenraad Rijkel
- 2.27 H. Rijkstijn
- 2.28 I. Roosen
- 2.29 Jan Steenbergен
- 2.30 Engelbert Tertон
- 2.31 Weijdemuller
- 2.32 The Wijne family

Chapter 3 **The origins, significance and contacts of Dutch woodwind makers** p. 101
- table of contents of chapter 3

- 3.1 **Introduction**
- 3.2 **Where makers came from**
- 3.3 **A timetable of the periods during which makers worked**
- 3.4 **Woodwind makers in other European centres**
 - 3.4.1 *Introduction*
 - 3.4.2 *Paris*
 - 3.4.3 *Nuremberg (Nürnberg)*
 - 3.4.4 *London*
 - 3.4.5 *Brussels*
- 3.5 **Apprenticeship contracts and Dutch makers' family relationships**
 - 3.5.1 *Apprenticeship contracts*
 - 3.5.2 *Makers' families and family relationships*
- 3.6 **Dutch instrument makers' other activities**
- 3.7 **Rich or poor?**
- 3.8 **Relations with Amsterdam makers of other kinds of instruments**
 - 3.8.1 *Introduction*
 - 3.8.2 *The violin makers*
 - 3.8.3 *Brass instrument makers*
 - 3.8.4 *Organ builders*
- 3.9 **Conclusion: on woodwind players and makers in 17th- and 18th-century Dutch musical life**

Chapter 4 **The instrument lists** p. 123
- table of contents of chapter 4

- 4.1 **Introduction**
- 4.2 **Editing the instrument lists**
- 4.3 **List of 1-piece ('early baroque') recorders**

- 4.4 List of unstamped, woodwind instruments consisting of two or more parts, in the baroque style
- 4.5 Abraham van Aardenberg
- 4.6 Jan (Barend) Beuker
- 4.7 Willem Beukers senior & junior
- 4.8 Thomas & Jan Boekhout
- 4.9 Philip Borkens
- 4.10 Wybrand van Buren
- 4.11 I. Deppe
- 4.12 F. Eerens
- 4.13 D. van Gulik
- 4.14 Richard Haka
- 4.15 Klaas van Hallum
- 4.16 The Van Heerde family
- 4.17 Bernard Hemsing
- 4.18 Jan & Fredrik de Jager
- 4.19 Johannes van de Knikker
- 4.20 Michiel Parent
- 4.21 Hendrik & Fredrik Richters and oboes in the Richters style
- 4.22 Coenraad Rijkel
- 4.23 H. Rijkstijn
- 4.24 I. Roosen
- 4.25 Jan Steenbergen
- 4.26 Engelbert Terton
- 4.27 Weijdemuller
- 4.28 Robbert & Willem Wijne

Chapter 5 Production and distribution of Dutch woodwind instruments

p. 177

- [table of contents of chapter 5](#)

- 5.1 Introduction
- 5.2 Production or merchandise
- 5.3 Haka's and Hemsing's invoices
- 5.4 Instruments repaired by Dutch makers
- 5.5 Chronological table of makers and instruments
 - 5.5.1 *Versatility and specialisation*
 - 5.5.2 *Representative character of the found instruments*
- 5.6 The distribution of Dutch woodwind instruments today
- 5.7 The great collectors and where they found their instruments
- 5.8 Instruments found in excavations
- 5.9 Deliveries of Dutch instruments to other countries
- 5.10 Woodwind instruments in historical Dutch estates
- 5.11 Conclusion: how the instruments were used

Chapter 6 Stamps and inscriptions

p. 199

- table of contents of chapter 6

6.1 Introduction**6.2 Stamps of names and towns, and makers' marks**

- 6.2.1 *Abraham van Aardenberg*
- 6.2.2 *Jan Barend Beuker*
- 6.2.3 *Willem Beukers senior & junior*
- 6.2.4 *Thomas & Jan Boekhout*
- 6.2.5 *Philip Borkens*
- 6.2.6 *Wybrand van Buren*
- 6.2.7 *I. Deppe*
- 6.2.8 *F. Eerens*
- 6.2.9 *D. van Gulik*
- 6.2.10 *Richard Haka*
- 6.2.11 *Klaas van Hallum*
- 6.2.12 *The Van Heerde family and 'I.V.H'*
- 6.2.13 *Bernard Hemsing*
- 6.2.14 *Jan & Fredrik de Jager*
- 6.2.15 *Johannes van de Knikker*
- 6.2.16 *Michiel Parent*
- 6.2.17 *Hendrik & Fredrik Richters*
- 6.2.18 *Coenraad Rijkel*
- 6.2.19 *H. Rijkstijn*
- 6.2.20 *I. Roosen*
- 6.2.21 *Jan Steenbergen*
- 6.2.22 *Engelbert Terton*
- 6.2.23 *Weijdemuller*
- 6.2.24 *Robbert & Willem Wijne*

6.3 Makers' marks: an analysis

- 6.3.1 *The scroll stamps*
- 6.3.2 *Stamps without scrolls*
- 6.3.3 *Variation in character size, punctuation, curvature and crispness of the name-stamps*

6.4 Stamps with names of towns**6.5 Makers' and workshop marks****6.6 Serial numbers, dates, owners' names, museum codes, makers' marks on silver and other marks**

- 6.6.1 *Serial numbers and museum codes*
- 6.6.2 *Dates*
- 6.6.3 *Initials, monograms and names*
- 6.6.4 *House-marks*
- 6.6.5 *Silver marks*

6.7 Positions of stamps**6.8 Illegible stamps and unstamped instruments****6.9 The stamps: variations and relationships; a few conclusions****Chapter 7 Recorders and flageolets**

p. 237

- table of contents of chapter 7

7.1 Introduction: historical nomenclature**7.2 Early and early baroque recorders**

- 7.2.1 *Early recorders: from the Middle Ages to the 17th century*
- 7.2.2 *Early baroque recorders from the 17th century*

- a- the surviving instruments*
 - b- materials and state of conservation*
 - c- external appearance*
 - d- windways, blocks and labia*
 - e- bores and finger-holes*
 - f- tuning and playing technique*
- 7.2.3 *The 'Van Eyck recorder'*
- 7.2.4 *The early baroque recorders: a review*
- 7.3 The baroque recorders**
- 7.3.1 *The surviving instruments and their sizes*
- 7.3.2 *Pairs and sets of recorders*
- 7.4 Use of material, damage, adjustments and repairs**
- 7.4.1 *Wood and ivory*
- 7.4.2 *Working and finishing wood*
- 7.4.3 *Damage, adjustments and repairs*
- 7.5 Characterisation of the turnery and other external features of the recorders**
- 7.5.1 *Introduction*
- 7.5.2 *Undulating and 'articulated' bulges*
- 7.6 Windways, blocks, step-heights, windows and labia of the recorders**
- 7.6.1 *Introduction*
- 7.6.2 *The design of the windways: longitudinal and transverse curvatures*
- 7.6.3 *Candle-flames and thickness of the labium edges*
- 7.6.4 *Blocks: originality and use of material; design of the block path*
- 7.6.5 *The consequences of windway and block design*
- 7.6.6 *The 'step'*
- 7.6.7 *Windows and labia*
 - a- Proportioning the width and length of the window*
 - b- the relationship between window lengths and sounding lengths*
 - c- the design of the labia*
- 7.7 The recorders' bore profiles**
- 7.7.1 *Introduction*
- 7.7.2 *Variation in the bore profiles*
 - a- the consequences of conically tapering bores*
 - b- head bores*
 - c- middle joint bores*
 - d- foot bores*
 - e- non-alignment of the bores*
- 7.7.3 *Scaling recorder bores*
- 7.8 Playing the recorders**
- 7.8.1 *Introduction*
- 7.8.2 *Compass*
- 7.8.3 *Tuning*
- 7.8.4 *Temperaments*
- 7.8.5 *Fingerings and purity*
 - a- fingering systems*
 - b- the vicissitudes of tuning in Van Aardenberg's recorders*
 - c- the third register: the question of long-footed and short-footed recorders*
- 7.8.6 *An investigation into sound, noise and subsidiary sounds*
 - a- introduction*
 - b- two recorders and the opinions of three players*
 - c- electronic sound examination*
 - d- conclusions*
- 7.9 Sopranino recorders**

7.10 Sixth flutes, soprano recorders and third flutes

- 7.10.1 *Introduction*
- 7.10.2 *Sixth flutes*
- 7.10.3 *Soprano recorders*
- 7.10.4 *Robbert Wijne's third flute*

7.11 The alto recorders

- 7.11.1 *Numbers and models*
- 7.11.2 *Lengths and tunings*
- 7.11.3 *Playing the alto recorders*

7.12 Voice flutes and tenor recorders

7.13 Bass recorders

- 7.13.1 *Variation in the external design and construction of the bass recorders*
- 7.13.2 *The internal design and playing of the bass recorders*

7.14 Walking-stick recorders

7.15 Double recorders

7.16 French flageolets

7.17 The Dutch recorders: a comprehensive survey of the various makers' extant instruments

- 7.17.1 *Abraham van Aardenberg*
- 7.17.2 *Willem Beukers*
- 7.17.3 *Thomas and Jan Boekhout*
- 7.17.4 *Philip Borkens*
- 7.17.5 *Eerens*
- 7.17.6 *Richard Haka*
- 7.17.7 *Van Heerde*
- 7.17.8 *De Jager*
- 7.17.9 *Michiel Parent*
- 7.17.10 *I. Roosen*
- 7.17.11 *Coenraad Rijkel*
- 7.17.12 *Jan Steenberg*
- 7.17.13 *Engelbert Terton*
- 7.17.14 *Robbert Wijne*

7.18 The Dutch recorders: concluding remarks

- 7.18.1 *The introduction and development of the baroque recorder in the Netherlands*
- 7.18.2 *On versatility and affinity*
- 7.18.3 *Did a typically Dutch recorder ever exist?*
- 7.18.4 *Résumé of conclusions in connection with the Dutch recorders*

Chapter 8 Traversos

p. 361

- table of contents of chapter 8

8.1 Introduction: Renaissance and baroque traversos; historical nomenclature and types

- a- historical nomenclature*
- b- Renaissance traversos and 'pypers fluiten' (fifes) in The Netherlands*
- c- the construction of the one-keyed baroque traversos*

8.2 The materials used in the baroque traversos and the instruments' state of preservation

- 8.2.1 *Production and sizes*
- 8.2.2 *Materials*
- 8.2.3 *Working the wood*
- 8.2.4 *Incomplete instruments, damage, repairs and modifications*

- 8.3 Three-joint and four-joint traversos and traverso corps de rechange**
- 8.3.1 *Three-joint and early four-joint traversos*
- 8.3.2 *Dutch traversos with corps de rechange*
- 8.4 The design and outward appearance of the traversos**
- 8.4.1 *Introduction*
- 8.4.2 *'Put-on' and 'put-in' caps and register feet*
- 8.4.3 *Key forms and constructions*
- 8.4.4 *The turnery*
- 8.5 Traverso mouth-holes and tone-holes**
- 8.5.1 *Mouth-hole design and workmanship*
- 8.5.2 *Undercuttings, wall-thickness and positions of the mouth-holes*
- 8.5.3 *The tone-holes of the traversos and their undercuttings*
- 8.6 The bores and lengths of the traverso joints**
- 8.6.1 *Profiles and measurements of the head and middle joints*
- 8.7 Traversos in tunings other than d¹**
- 8.7.1 *Robbert Wijne's piccolo traverso*
- 8.7.2 *Van Aardenberg's short traverso*
- 8.7.3 *Haka's, Van Heerde's and Hemsing's flûtes d'amour*
- 8.7.4 *Jan Barend Beuker's bass traversos*
- 8.8 Playing the traversos**
- 8.8.1 *Introduction*
- 8.8.2 *The relationship between the lengths and tunings of the traversos*
- 8.8.3 *Assessing playability and sound*
- 8.8.4 *Judging the traversos' pure pitch: a brief excursion*
- 8.8.5 *The intonation of the examined instruments: some observations*
- 8.9 A survey of the characteristics of the extant traversos, arranged according to their makers**
- 8.9.1 *Abraham van Aardenberg*
- 8.9.2 *Jan (Barend) Beuker*
- 8.9.3 *Willem Beukers*
- 8.9.4 *Philip Borkens*
- 8.9.5 *I. Deppe*
- 8.9.6 *F. Eerens*
- 8.9.7 *D. van Gulik*
- 8.9.8 *Richard Haka*
- 8.9.9 *Klaas van Hallum*
- 8.9.10 *Van Heerde*
- 8.9.11 *Bernard Hemsing*
- 8.9.12 *Engelbert Terton*
- 8.9.13 *Weijdemuller*
- 8.9.14 *Robbert Wijne*
- 8.9.15 *Willem Wijne*
- 8.10 The Dutch traversos: concluding remarks**
- 8.10.1 *The development of the Dutch traverso*
- 8.10.2 *The relationship between Dutch and French traversos*
- 8.10.3 *Types and chronology of the Dutch traversos: a résumé of the conclusions*

Chapter 9 Oboes and Deutsche schalmeien

p. 413

- table of contents of chapter 9

9.1 Introduction

- 9.1.1 *Deutsche schalmeien, pommers and oboes*
- 9.1.2 *The first baroque oboes in the Netherlands and the historical nomenclature*

9.2 Dutch oboes: dating and production

- 9.2.1 *The extant instruments and their sizes*
- 9.2.2 *Paired instruments*
- 9.2.3 *The wood*
 - a- the various kinds of wood*
 - b- working the wood*
 - c- staining and colouring the wood*
 - d- wood carving*
- 9.2.4 *Ivory and metal mounts on the oboes*

9.3 Damage, missing parts, repairs and modifications

- 9.3.1 *Introduction*
- 9.3.2 *Missing parts, replacements and modifications*
- 9.3.3 *Cracks and other damage*

9.4 External characteristics of the oboes

- 9.4.1 *Introduction*
- 9.4.2 *Introduction and execution of the turning: smooth and profiled balusters*
 - a- the oboe types of Halfpenny and Haynes*
 - b- classification of the Dutch oboes*
- 9.4.3 *The oboes in the Haka/Denner style*
- 9.4.4 *The oboes in the Boekhout/Borkens style: smooth-rimmed bell sockets*
- 9.4.5 *The turned finial cups and the design of the balusters*
- 9.4.6 *Differentiation and quality of the turning on Dutch oboes*
- 9.4.7 *Keys*
 - a- construction and design of the keys; the makers of the keys*
 - b- the traditional keys in the 'Haka style'*
 - c- key forms related to the traditional type*
 - d- differing key shapes and constructions*
 - e- key channels and axles*
- 9.4.8 *Dating the various external characteristics*

9.5 Examination of the internal design of the oboes

- 9.5.1 *Introduction*
- 9.5.2 *On the relationship between lengths, bores and pitches*
- 9.5.3 *Narrowest bores ('passages'), counter bore' and the bores of the staples*
- 9.5.4 *The bore profiles of the various sections of the oboes*
 - a- general oboe bore design*
 - b- the bores of the upper and centre joints*
 - c- the bores of the oboe bells*
 - d- on the relationship between the length and bore measurements of the oboe parts*
- 9.5.5 *Tone-holes and key holes*
 - a- double tone-holes*
 - b- single tone-holes*
 - c- tone-hole undercuttings*

9.6 The examination of the oboes and schalmeien with regard to their playing technique

- 9.6.1 *Introduction*
- 9.6.2 *On comparative playing sessions*
- 9.6.3 *Tunings and temperaments; the concept of resistance*

9.7 The short descant oboes of Haka and Rijkel and Haka's oboe-shawm

- 9.7.1 *Haka's and Rijkel's short descant oboes*
- 9.7.2 *Haka's oboe-schalmei*

9.8 Richters' and Rijkstijn's oboes

- 9.8.1 *Introduction: Richters, Adkins and Young; European boxwood oboes*
- 9.8.2 *The decorative ivory turning on the Richters oboes*

- 9.8.3 *The silverwork on Richters' and Rijkstijn's oboes*
a- introduction
b- the silverwork on oboes HR8, RS1, RS3 and HR23
c- the silverwork on oboes no. RS4, FR1, RS5 and Rijkstijn no. 1
- 9.8.4 *The silver keys with engraved representations on the Richters' oboes*
a- rebuses, dancers, musicians and floral motifs
b- on the originality and kinship of the engraved keys
- 9.8.5 *The lengths, bores and tone-holes on oboes by the Richters and Rijkstijn*
a- the lengths of the oboe joints and the distribution of the tone-holes
b- the bore profiles: an introduction
c- the bore profiles of the upper and middle joints
d- the bell bores
- 9.8.6 *The tone-holes*
- 9.8.7 *Adkins' examination of the bores of the Richters oboes*
- 9.8.8 *Playing the Richters oboes*
- 9.8.9 *The Richters and Rijkstijn oboes: concluding remarks*
- 9.9 Tenor oboes and oboes d'amore**
a- on the nomenclature and historical reports of longer oboes in the Netherlands
b- Haka's, Hendrik Richters' and Robbert Wijne's tenor oboes
- 9.10 Richard Haka's Deutsche schalmeien**
- 9.10.1 *Introduction: nomenclature and extant instruments*
- 9.10.2 *Construction and external design*
- 9.10.3 *Pirouettes and the function of the bell pegs*
- 9.10.4 *Dimensions, bores and tone-hole positions*
- 9.10.5 *Playing the schalmeien*
- 9.10.6 *Haka's Deutsche schalmeien: conclusion*
- 9.11 The Dutch oboes: a summary of the characteristics of the extant instruments by the various makers**
- 9.11.1 *Abraham van Aardenberg*
- 9.11.2 *Jan Barend Beuker*
- 9.11.3 *Willem Beukers senior & junior*
- 9.11.4 *Thomas & Jan Boekhout*
- 9.11.5 *Philip Borkens*
- 9.11.6 *Wybrand van Buren*
- 9.11.7 *Richard Haka*
- 9.11.8 *Van Heerde*
- 9.11.9 *Fredrik de Jager*
- 9.11.10 *Johannes van de Knikker*
- 9.11.11 *Hendrik Richters, Fredrik Richters and Rijkstijn*
- 9.11.12 *Coenraad Rijkel*
- 9.11.13 *Jan Steenberg*
- 9.11.14 *Engelbert Terton*
- 9.11.15 *Robbert Wijne*
- 9.12 The Dutch oboes: concluding remarks**
- 9.12.1 *The development of the baroque oboe in the Netherlands*
- 9.12.2 *An assessment of the form characteristics of the Dutch oboes*
- 9.12.3 *The playing qualities of the oboes*
- 9.12.4 *Differences and likenesses in Dutch oboes*
- 9.12.5 *Résumé of conclusions pertaining to the Dutch oboes*

Chapter 10 Dulcians, bassoons and racketts p. 543

- table of contents of chapter 10

10.1 Introduction: the instruments in this chapter and their historical nomenclature

10.2 The dulcians

10.3 The bassoon

10.3.1 *Production and number of extant instruments*

10.3.2 *Haka's bassoon*

10.3.3 *Willem Wijne's bassoon*

10.3.4 *Van de Knikker's bassoon*

10.4 The racketts

10.4.1 *The construction of the rackett; the extant instruments*

10.4.2 *Willem Wijne's rackett*

10.4.3 *The rackett inscribed 'PYP 4 MAAL'*

10.5 The bassoons and racketts: final remarks

10.5.1 *The development of the bassoon in the Netherlands*

10.5.2 *Resumé of conclusions regarding the Dutch bassoons and racketts*

Chapter 11 Chalumeaux and clarinets p. 561

- table of contents of chapter 11

11.1 Introduction: typology and nomenclature

11.2 The clarinets of Boekhout and Borkens

11.2.1 *Boekhout's clarinet*

11.2.2 *Borkens' clarinet*

11.2.3 *Van de Knikker's clarinet*

11.3 The clarinets: closing remarks

Summary and conclusions p. 569

- On the scope and methodical aspects of this study
- The most significant results of research into biographical details of the woodwind makers, the lists of instruments, makers' marks and inscriptions on the instruments
- The most important results of the investigation into the technical aspects of the instruments
- Summary of the instruments and importance of the Dutch fluytenmakers
- Conclusion

Samenvatting en conclusies (Dutch summary) p. 587

Bibliography p. 607

Index of names (register) p. 615

Appendix A - Museums and collections

Appendix B - Reports of Dutch woodwind instruments in sale catalogues and inventories between 1700 and ca. 1830

Appendix C - Descriptions and measurements of the instruments of Dutch woodwind makers

Appendix D - Haka's invoice of 1685
